

Your Spring Homework: *A Nature Treasure Hunt*

Find all ten on your next walk outside!

- A bird you can hear but not see
- Something that is a colour you didn't expect to find outside
- The smell of thawing earth or wet grass
- A tree that is just starting to bud
- An insect - any insect - the first one you've spotted this season
- A puddle, a stream, or any moving water
- Evidence that an animal has been somewhere recently (tracks, a nest, or something half-eaten)
- A cloud formation worth stopping to look at
- Something small on the ground you would have walked past without noticing - look closer
- A moment where you forget to think about anything else

Bonus: Leave your phone in your pocket for the whole walk!
